PROFILE

QA tester with over 3 years' experience in the tech and video games industry, during which time I received extensive on-the-job training as a QA Tester and Tech Analyst. This training enabled me to successfully ship three AAA titles through submission processes with zero certification failures. Specialising in compatibility, performance and analytics testing, to the point of becoming a key figure within the team. A strong team player and quick learner, I always strive to contribute to a positive working environment.

WORK EXPERIENCE

Milestone, Milan

01/2025 - PRESENT

QA tester

- Delivered MotoGP 25, RIDE 6 and HotWheels Infinite Rush through the full console submission process; all three titles passed with a perfect score, thanks to in-depth knowledge of TRC and XR.
- Carried out performance testing and analytics QA; designed and executed test plans covering frame rate, load times, and stability
- Worked closely with developers to reproduce, identify root causes, and document complex technical issues; tracked resolutions in issue management systems.
- Played an active role in process improvement initiatives within the QA department.

Ubiquicom, Milan

05/2024 - 12/2024

QA specialist (Freelancer)

- Conducting software and hardware tests on tracking and geolocation devices.
- Organising the tests in the company manual.
- Drafting reports on the tests carried out.
- Reprogramming the software and resolving any faults found.

DaVinci HealthCare, Milan

01/2024 - 05/2024

Software QA specialist (Freelancer)

- Development of test systems broken down into test cases.
- Execution of detailed test cases on mobile and web applications.
- Management of the team and collaboration with developers to resolve any issues encountered during testing.

Fiverr

09/2023 - PRESENT

Game QA and LQA Tester (Freelancer)

- Manual testing of apps and web apps, with production of test reports.
- Identification, reproduction and reporting of bugs.
- Comprehensive QA and Italian LQA for "Ogu and the Secret Forest"

24hassistance, Milan

03/2023 - 03/2024

QA junior analyst (Internship)

- Design and development of test systems for various software application requirements.
- Data collection and processing using Power BI.
- Preparation of reports and technical documents on test results.
